Our name is in acknowledgement of the four Lakota Bands who reside here on the Wakpa Waste Oyanke (Good River People aka CRST Reservation) Itazipco (Without Bows), Oohenumpa (Two Kettle), Siha Sapa (Blackfoot) and Minnicoujou (Plants by the Water.)

Philosophy:

We are a Lakota Culturally-based treatment program that is designed to utilize the Canku Luta Wounspe (Red Road Approach/Teachings) which is a culturally relevant holistic approach. Healing the spiritual, mental, physical and emotional aspects of addictions by combining the Lakota (Lakol Woopé), the Christian (Wanikiya Wounspe) and the 12 step thoughts and philosophy combined with current mainstream Behavior Health Treatment Modalities, which are developed and/or adapted for our specific population which is "Le Lakota Oyate"

We utilize the Lakota Values of Wounsila (Compassion), Wohola (Respect), Wacantognaka (Generosity), Woksape (Wisdom), na Wo'Ohitika (Courage/Bravery).

We recognize the seasons Wetu (Spring), Bloketu (Summer), Ptanyetu (Autumn) and Waniyetu (Winter) as times of significance for addiction/mental health triggers also for healing,

We believe our people can heal from this disease of alcoholism, drug addiction, trauma, learned helplessness, PTSD, anxiety and other related mental and addiction challenges affecting our people. As a program, we will empower the Oyate (Nation) to build a self-sustaining healthy living environment of Wolakota (Peace & Harmony)
